tf.delete_session_tensor

```
delete_session_tensor(
    handle,
    name=None
)
```

Defined in `tensorflow/python/ops/session_ops.py`.

See the guide: Tensor Handle Operations > Tensor Handle Operations

Delete the tensor for the given tensor handle.

This is EXPERIMENTAL and subject to change.

Delete the tensor of a given tensor handle. The tensor is produced in a previous run() and stored in the state of the session.

Args:

- `handle`: The string representation of a persistent tensor handle.
- `name`: Optional name prefix for the return tensor.

Returns:

A pair of graph elements. The first is a placeholder for feeding a tensor handle and the second is a deletion operation.
