

## tf.resource\_loader.load\_resource

```
load_resource(path)
```

Defined in [tensorflow/python/platform/resource\\_loader.py](#).

Load the resource at given path, where path is relative to tensorflow/.

## Args:

- `path`: a string resource path relative to tensorflow/.

## Returns:

The contents of that resource.

## Raises:

- `IOError`: If the path is not found, or the resource can't be opened.
