

tf.keras.backend.random_uniform

```
random_uniform(  
    shape,  
    minval=0.0,  
    maxval=1.0,  
    dtype=None,  
    seed=None  
)
```

Defined in [tensorflow/python/keras/_impl/keras/backend.py](#).

Returns a tensor with uniform distribution of values.

Arguments:

- **shape** : A tuple of integers, the shape of tensor to create.
- **minval** : A float, lower boundary of the uniform distribution to draw samples.
- **maxval** : A float, upper boundary of the uniform distribution to draw samples.
- **dtype** : String, dtype of returned tensor.
- **seed** : Integer, random seed.

Returns:

A tensor.
