

tf.keras.backend.resize_images

```
resize_images(  
    x,  
    height_factor,  
    width_factor,  
    data_format  
)
```

Defined in [tensorflow/python/keras/_impl/keras/backend.py](#).

Resizes the images contained in a 4D tensor.

Arguments:

- `x`: Tensor or variable to resize.
- `height_factor`: Positive integer.
- `width_factor`: Positive integer.
- `data_format`: One of `"channels_first"`, `"channels_last"`.

Returns:

A tensor.

Raises:

- `ValueError`: if `data_format` is neither `channels_last` or `channels_first`.
