

tf.add_to_collection

```
add_to_collection(  
    name,  
    value  
)
```

Defined in [tensorflow/python/framework/ops.py](#).

See the guide: [Building Graphs > Graph collections](#)

Wrapper for `Graph.add_to_collection()` using the default graph.

See [tf.Graph.add_to_collection](#) for more details.

Args:

- `name`: The key for the collection. For example, the `GraphKeys` class contains many standard names for collections.
- `value`: The value to add to the collection.
