

tf.train.create_global_step

```
create_global_step(graph=None)
```

Defined in [tensorflow/python/training/training_util.py](#).

Create global step tensor in graph.

Args:

- **graph**: The graph in which to create the global step tensor. If missing, use default graph.

Returns:

Global step tensor.

Raises:

- **ValueError**: if global step tensor is already defined.
