

tf.contrib.input_pipeline.obtain_next

```
obtain_next(  
    string_list_tensor,  
    counter  
)
```

Defined in [tensorflow/contrib/input_pipeline/python/ops/input_pipeline_ops.py](#).

Basic wrapper for the ObtainNextOp.

Args:

- `string_list_tensor`: A tensor that is a list of strings
- `counter`: an int64 ref tensor to keep track of which element is returned.

Returns:

An op that produces the element at counter + 1 in the list, round robin style.
