

## tf.logging.log\_first\_n

```
log_first_n(  
    level,  
    msg,  
    n,  
    *args  
)
```

Defined in [tensorflow/python/platform/tf\\_logging.py](#).

Log 'msg % args' at level 'level' only first 'n' times.

Not threadsafe.

## Args:

- `level`: The level at which to log.
- `msg`: The message to be logged.
- `n`: The number of times this should be called before it is logged.
- `*args`: The args to be substituted into the msg.
