TensorFlow   API r1.4

tf.keras.regularizers.L1L2

Class **L1L2**

Inherits From: **Regularizer**

Defined in **tensorflow/python/keras/_impl/keras/regularizers.py** .

Regularizer for L1 and L2 regularization.

Arguments:

- `l1` : Float; L1 regularization factor.
- `l2` : Float; L2 regularization factor.

Methods

__init__

```
__init__(
    l1=0.0,
    l2=0.0
)
```

__call__

```
__call__(x)
```

from_config

```
from_config(
    cls,
    config
)
```

get_config

```
get_config()
```
