tf.contrib.gan.GANLoss

Class **GANLoss**

Defined in `tensorflow/contrib/gan/python/namedtuples.py`.

GANLoss contains the generator and discriminator losses.

Args:

- `generator_loss` : A tensor for the generator loss.
- `discriminator_loss` : A tensor for the discriminator loss.

Properties

discriminator_loss

Alias for field number 1

generator_loss

Alias for field number 0

Methods

__new__

```
__new__(
    _cls,
    generator_loss,
    discriminator_loss
)
```

Create new instance of GANLoss(generator_loss, discriminator_loss)
