TensorFlow   API r1.4

tf.keras.datasets.reuters.get_word_index

```
get_word_index(path='reuters_word_index.json')
```

Defined in `tensorflow/python/keras/_impl/keras/datasets/reuters.py`.

Retrieves the dictionary mapping word indices back to words.

Arguments:

- `path` : where to cache the data (relative to `~/.keras/dataset`).

Returns:

The word index dictionary.
