tf.resource_loader.get_path_to_datafile

```
get_path_to_datafile(path)
```

Defined in `tensorflow/python/platform/resource_loader.py`.

Get the path to the specified file in the data dependencies.

The path is relative to tensorflow/

Args:

- `path` : a string resource path relative to tensorflow/

Returns:

The path to the specified file present in the data attribute of py_test or py_binary.

Raises:

- `IOError` : If the path is not found, or the resource can't be opened.
