TensorFlow   API r1.4

tf.keras.layers.maximum

```
maximum(
    inputs,
    **kwargs
)
```

Defined in `tensorflow/python/keras/_impl/keras/layers/merge.py` .

Functional interface to the `Maximum` layer.

Arguments:

- `inputs` : A list of input tensors (at least 2).
- `**kwargs` : Standard layer keyword arguments.

Returns:

A tensor, the element-wise maximum of the inputs.
