TensorFlow   API r1.4

tf.keras.backend.set_learning_phase

```
set_learning_phase(value)
```

Defined in **tensorflow/python/keras/_impl/keras/backend.py** .

Sets the learning phase to a fixed value.

Arguments:

- `value` : Learning phase value, either 0 or 1 (integers).

Raises:

- `ValueError` : if `value` is neither `0` nor `1` .
