>   __new__

Class **BeamSearchDecoderOutput**

Defined in **tensorflow/contrib/seq2seq/python/ops/beam_search_decoder.py** .

Properties

parent_ids

Alias for field number 2

predicted_ids

Alias for field number 1

scores

Alias for field number 0

Methods

__new__

```
__new__(
    _cls,
    scores,
    predicted_ids,
    parent_ids
)
```

Create new instance of BeamSearchDecoderOutput(scores, predicted_ids, parent_ids)
