tf.contrib.gan.get_sequential_train_hooks

```
get_sequential_train_hooks(train_steps=namedtuples.GANTrainSteps(1, 1))
```

Defined in **tensorflow/contrib/gan/python/train.py** .

Returns a hooks function for sequential GAN training.

Args:

- **train_steps** : A **GANTrainSteps** tuple that determines how many generator and discriminator training steps to take.

Returns:

A function that takes a GANTrainOps tuple and returns a list of hooks.
