TensorFlow   API r1.4

tf.keras.backend.ctc_label_dense_to_sparse

```
ctc_label_dense_to_sparse(
    labels,
    label_lengths
)
```

Defined in `tensorflow/python/keras/_impl/keras/backend.py` .

Converts CTC labels from dense to sparse.

Arguments:

- `labels` : dense CTC labels.
- `label_lengths` : length of the labels.

Returns:

A sparse tensor representation of the labels.
